Big article...  
Didn't Hitler say something like..  
The bigger the lie the easier people will believe it?

JURRIDISDICTION - the simple question one must ask about. "What is your evidence of jurrisdiction?"

Seriously we need to debate this point because EVERYTHING in this article predicates upon this one point.

**Robert MacKenzie** what an incredibly stupid statement

2 Likes

**Robert MacKenzie** 1w ...

I'm sorry, but the definition of stupid is refusing to see the truth and facts in front of you. Maybe you should slow down on your steady diet of Fox News BS and maybe listen to one of the two reporters on Fox who still tells the truth. Shep Smith and Chris Wallace, well Brett Baier is mostly above board as well, so three. His lies are so easily fact-checked it's astounding.

Make the lie big, keep it simple, and say it over and over again and they will believe you.

I think he has lied more than any other person in his role. Added sarcasm here but not likely far from the truth.

I'm talking about the lies coming from the author of the article. I'm paraphrasing, he said these laws apply... if you break them you can be put in jail... So if he doesn't show how the laws apply to my satisfaction by August 1st, then I'm calling him out as a liar and a terrorist - and I'm forgiving him 1 million dollars(bitUSD) penalty for dishonoring my presentment - and then I'm putting him in honor visa vie my personal forgiveness and issuing my crypto Remedy.Stark. So that I don't have ...see more

NOTICE OF PENDING FORGIVENESS:

Lets Debate

So where is your evidence that your laws apply to any of these people?

I suppose you think that just because some poor guy is inside the geographic borders of a place dominated by a "governemnt" that you assume that the laws apply. Well they only apply if you can answer this one question.

How is it that laws apply just because one is inside the borders of your imaginary political domain?

And now I'm going to charge you 1 million bitUSD worth of damage if you ignore this NOTICE. You have untill august 1st to explain your jurisdiction to my satisfaction here in this open forum. If you don't I'm issuing "Remedy.Stark" as a forgiveness coin for your part in terrorizing the populace. For my part, I'll hold you in honor if the forgiveness is issued. There is no proof of jurisdiction that I am aware of. The value comprobable to 1 million bitUSD is being issued from my infinite personal worth.

On another note.

Why is it that someone with a jurisdoctrate in law would tell me that securities that are the result of an arbitration settlement are not regulated? And why the head of the workers' compensation fund of a significant state would concur ?

1w ...

Zero regulation applies to a crypto security that is the result of an arbitration type settlement. ZERO..

So... why not move your money into "Remedy" Coin and the sub coins that we are creating at [RemedyCoin.com](http://RemedyCoin.com).

Crypto's were developed by the US military which spawned from a plan to trick the masses to move to a cashless society. They released bitcoin under the guise of a way for the masses to transact safely away from the corrupt banking system (since they could see that people were waking up to the banking system fraud). This is why the creator of bitcoin is this mystery man nobody actually knows or has met... The true agenda is for one crypto to become the king of crypto's while the rest will fall by the wayside and this is inte ...see more

Does the President want another term in Politics, his own business has suffered during his presidency because of his focus on Politics, he has been slandered so terribly and for no real reason, his family has been criticized unnecessarily, he is not allowed to state an opinion or speak without cronies jumping on every word he said, Politics has become a headache, so much twisting of the meaning. Maybe the President needs some time away to recover? I hope not because he has done so much good, only a strong Presence ...see more
